Forecast for Monday 13 Jun 2022

Weather: Dry, bright start then soon clouding over. There will be a little rain during the morning, mostly in west of area. Drier, brighter weather following in the afternoon with an isolated shower breaking out, dying away again early evening.

Chance of cloud-free hill tops above 800m: 40% in the morning, best in east, improving 80% in afternoon.

Low cloud and visibility: Good visibility at first becoming misty in west of area during morning as light rain moves in. Also clouds becoming extensive with bases lowering to about 600 to 700m especially over Creag Meagaidh and around Ben Alder. Patches of poorer visibility and lower cloud further east of a time, then good visibility and clouds lifting and breaking in the afternoon.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Strong winds and single figure temperatures over higher ridges/summits will make it feel unseasonably cold.

Forecast for Tuesday 14 Jun 2022
Weather: Mostly cloudy with a pulse of rain crossing from the west later in morning clearing in the afternoon. Drier weather at first and again later in the day.

Maximum wind: Fresh to strong southwest winds on the tops, average speeds 20 to 30mph with gusts 40mph.

Chance of cloud-free hill tops above 800m: 40%, best in northeast of area.

Low cloud and visibility: Good visibility at first becoming poor as rain moves in during the morning, especially in west of area, clouds coming well down the hills. Good visibility returning during afternoon with clouds lifting and breaking up.

Temperature: **Glens:** 9 Celsius rising to 17 Celsius.
At 800m: Plus 8 Celsius.
Freezing level: Above the summits.
